

Customs Competency Programme for Businesses

A new programme supported by Singapore Customs & SPRING Singapore

The Customs Competency Programme for Businesses is developed with the aim of enhancing the competency of businesses in handling customs matters. The Programme is suitable for participants who are responsible for customs operations of their companies, including operational staff who handle customs transactions on a daily basis as well as management staff overseeing supply chain and logistics matters.

The Programme consists of two parts.

Part I is a 2-day course and it provides an overview of the customs procedures pertaining to importation and exportation of goods. At the end of Part I, participants will be able to know the basic requirements for preparing TradeNet@ declarations.

Part II is a 4-day course which will be held over 3 full-day and 2 half-day sessions. It covers a wide range of topics including temporary importation, manifest procedures, warehousing regimes, strategic goods control, supply chain security, customs laws and international customs matters. Participants will be able to gain a comprehensive understanding of the full range of procedures which different types of businesses may be transacting with Singapore Customs.

Depending on their needs, participants may choose to attend either only Part I of the Programme or both Part I and Part II. Participants who attended Part I will be issued with a "Certificate of Attendance". For Part II, participants will sit for a written examination at the end of the course. Participants who passed the examination will be issued a "Certificate of Completion".

Please note that participants who wish to attend Part II should have either completed Part I of the Programme or have previously attended the Customs Documentation Course conducted by Singapore Customs.

Trainers : The Programme will be delivered by senior officers from Singapore Customs dealing with the respective subject matters.

Training Provider :

CDAS LOGISTICS ALLIANCE (LTD)

This programme is developed under the Local Enterprise and Association Development (Lead) Programme and is approved for SDF Enhanced Assistance.
